

Let's make a rainbow!

You will need:

safety scissors, a paper plate, paints, cotton wool and glue

Instructions:

Step one:

Cut your paper plate into a semi circle, then cut out another small semi circle middle to create the shape of a rainbow.

Step two:

Use your paints to colour your rainbow in: pretty purple, indigo, blue, green, bright yellow, sunshine orange and ruby red.

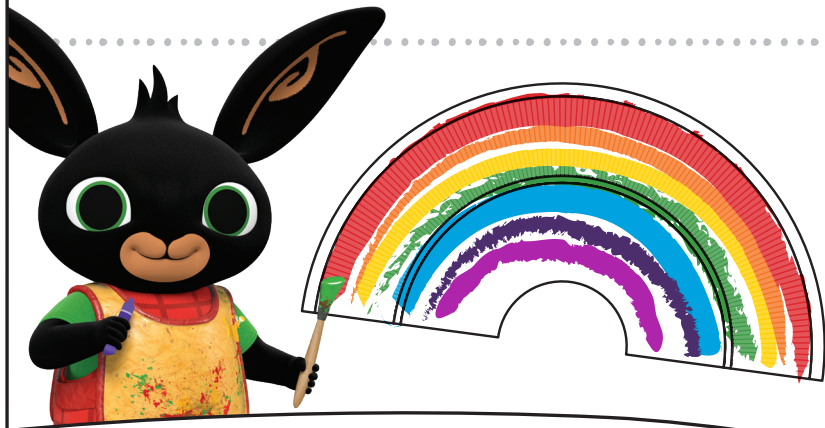

Step three:

Leave your rainbow to dry for a few minutes.

Step four:

When the paint has dried, dab some glue on the bottom ends of the rainbow and stick down your cotton wool clouds!

Please use caution and your own judgment about which steps your Bingster can be safely involved with. Always be careful when using scissors.

We would love to see your rainbows! Take a picture and share them with us by tagging @bingbunny on Instagram or Facebook.
